PROFESSIONAL PROFILE

Full-stack web developer trained in modern technologies such as TypeScript, React, Next.js, Express.js, and MongoDB. I am characterized by a methodical approach to project development, prioritizing clean, scalable, and well-structured code. I am looking to join a strong technical team where I can contribute from day one and continue to grow in high-impact product environments.

TECHNOLOGIES

FRONTEND

HTML • CSS • Tailwind CSS • Styled Components • TypeScript • React • Next.js

BACKEND & DB

Node.js • Express.js • Socket.IO • PostgreSQL • MongoDB

TOOLS & TESTING

PROJECTS (+)

NEOKAOTIK

TypeScript • React Native • Styled Components • Express.js • Socket.IO
Multiplayer fantasy mobile app featuring roles, branching narrative, and integration of the physical world via QR, GPS, and IoT.
[Video 1](#) • [Video 2](#) • [Video 3](#)

CHAOS WB

HTML • CSS • JavaScript • Node.js • Express.js • PostgreSQL
Short but intense video game, similar to the well-known "Super Mario Bros.", that presents a clear challenge: escape from a cave filled with all kinds of threats.
[Video Game](#) • [Source Code](#)

EXPERIENCE

WEB DEVELOPER

STECHome | Errenteria / Rentería (Internship)
Mar 2026 - May 2026

- Developed internal dashboards to display data related to the company's activity and finances through cards, charts, and tables, as well as to manage contracted services and incidents.
- Implemented a section that administrators can fully customize to showcase the company's services.

WEB DEVELOPER

SKOOTIK | Donostia / San Sebastián (Internship)
Sep 2023 - Nov 2023

- Participated in the proposal for the restructuring of the current ERP system due to the migration of technologies in the company.
- Developed the data models corresponding to one of the sections of the system and made possible the creation and modification of database entries based on them.
